# SCHLABAUGH AND SONS

**We are real woodworkers** — not just another mail order catalog. Schlabaugh & Sons is a family-owned woodworking company located in Iowa. Our family and team have been handcrafting clocks since 1983. Our clocks can be found in stores and galleries nationwide. We have also designed many items featured in Better Homes and Gardens “WOOD” Magazine.

This catalog is a collection of parts that we use when making our products, along with items that are popular among clockmakers. With years of experience in the woodworking industry, we aim to distribute quality products to our customers.

*We are here to assist you with your next woodworking project. Call or email us with any questions.*

- Jane Schlabaugh, owner

*John Schlabaugh, owner, with his father Emil.*
